STEP 1

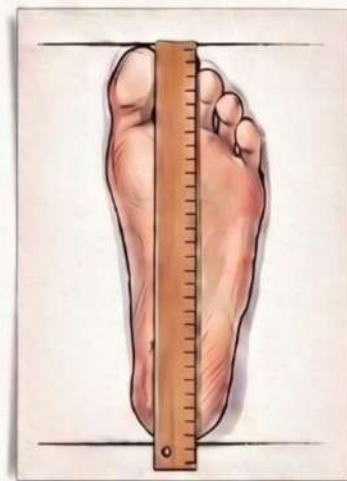

1. Begin by placing your bare foot flat on a sheet of paper.

STEP 2

2. Next, mark the tip of your longest toe and the base of your heel with a line.

STEP 3

3. Now, gauge the total length and check your measurement against the provided guide.

For measurements between increments, please select the larger size option. It is common to have one foot bigger than the other; base your choice on the longer measurement for optimal fit.
