6	9	39	25
7	10	40	25.5
8	11	41	26.5
9	12	42	27
10	13	43	28
11	14	44	29

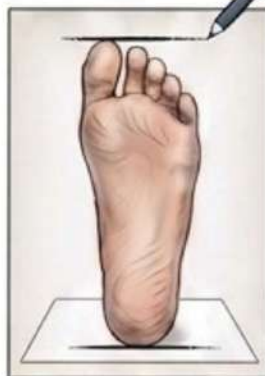

HOW TO GAUGE YOUR FOOT SIZE

STEP 1

Initially, place your foot flat on a sheet of paper. Ensure no socks or shoes are worn.

STEP 2

Next, use a pen to mark the outermost edge of your large toe and the tip of your heel.

STEP 3

Then, find the total length with a ruler. Check this figure against the size table.

Should your measurement fall exactly between two sizes, we recommend selecting the larger size. It is normal to have one foot slightly larger than the other. In this scenario, base your final size choice on the larger measurement.
